To Whom It May Concern:

I have worked with Esteban Lopez and James Niebling of Esteban Interiors for a variety of interior design projects and installations. They designed space and lighting plans, selected materials, and oversaw the installation of new furniture, floor coverings, wall coverings, lighting, and accessories for my home in La Jolla. They have also offered consultations with regard to exterior home colors, and interior plant aesthetics and artwork.

I am pleased to say the quality of work from both Esteban and James was exemplary. Their creative ideas were inspiring and helped bring my home to a new level that I had not anticipated. In addition their attention to detail with regard to quality of work, timeliness, and managing expenses within a budget were not only on target, but have far exceeded my expectations.

I feel very comfortable working with them on future design projects and would highly recommend utilizing their services with the utmost of confidence.

Sincerely,

Brian Ahern  
President/CEO
