CHECKING IN!

Grant Dame

Downtown, The **US Grant** hotel lobby is busting out with a new glam look, luring a buzzy happy-hour crowd and lounge set. Think Mooi crystal chandeliers with Mylar shades, courtesy of La Jolla's Esteban Interiors.

"We added lightness and brightness, a bit of glamour," says James Niebling, Esteban Lopez's partner. "It's cooler, not so traditional."

Esteban tapped La Jolla's Bisazza Tile for the va-va-voom iridescent mosaic bar panels. Esteban also custom-made the furniture, which includes metal bar tables finished in silver sparkle and dining tables with walnut tops and chess-like balustrades finished in a taupe lacquer. Talk about sparkle! Next up? The Grant is adding a raised backspace for more, um, room to feel fabulous.
