

ESTEBAN INTERIORS

ARTICLE NATALIE NEECE

L The shape and design of these hanging fixtures not only transforms the space visually but also adds the much-needed functions of office lighting and sound mitigation.

EVERY PROJECT AND EVERY CLIENT IS UNIQUE WHEN IT COMES TO ESTEBAN INTERIORS IN LA JOLLA. That allows them to offer a wide array of design services. As an award-winning residential and commercial interior design company, they used the BuzziGrid product for one of their clients in the recently redesigned law offices of Harris Personal Injury Lawyers at El Cortez Condominiums in San Diego.

"BuzziGrid was used to mitigate sound and add a decorative element," says James Niebling, president of Esteban Interiors. "We took this innovation a step further and introduced LED light strips along the underside of the grid to allow these fixtures to serve yet another function: illumination."

BuzziSpace is a European furniture and acoustic products manufacturer based in Antwerp, Belgium. The brand's designs respond to the global need to bring silence and style to the office. BuzziSpace designs can be used in changing environments worldwide. Offices, houses and other collaborative spaces are becoming increasingly compact, and we are opting more frequently for open-plan spaces. The brand combines aesthetics and noise reduction, thanks to the sound-absorbing eco-felt used in the designs, making day-to-day life better in every way.
